## ANNUAL VEGETATION MANAGEMENT PROGRAM

Each year, CN is required to manage vegetation on its right-of-way. Managing this vegetation contributes to mitigating fire risks and enhances the efficiency of inspection of track infrastructure.

To ensure safe railway operations, the annual vegetation management program will be carried out on CN rail lines in the province of Alberta. A certified applicator (Davey Tree Expert Company of Canada, Ltd., 1-800-465-6367) will apply herbicides on and around the railway tracks (primarily along the 24-foot graveled area/ballast). Product requirements for setbacks in the vicinity of dwellings, aquatic environments and municipal water supplies will be met.

CN only uses herbicides that have been approved for use in Canada and in the province within which they are applied.

The program is expected to take place from May to October 2025.
